

Our COVID Secure App

Helping you to staff safely and keep delivering education to all pupils

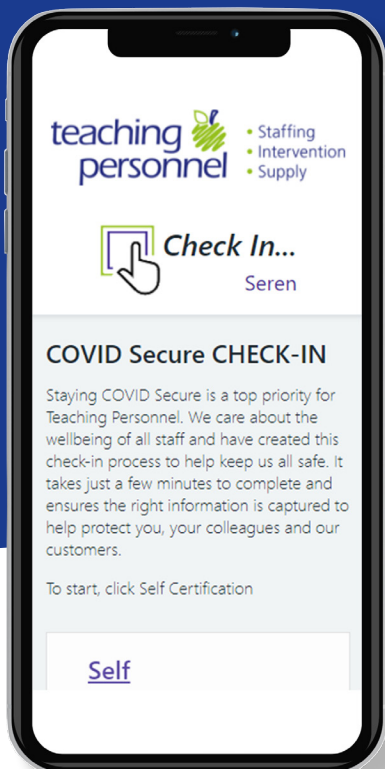

Introduction

Each week, our candidates are required to access and update their details on our app showing their availability to work. It is **quick and simple to use**, and also a key element in our ability to provide your school with COVID Secure Staffing.

The App features three different sections:

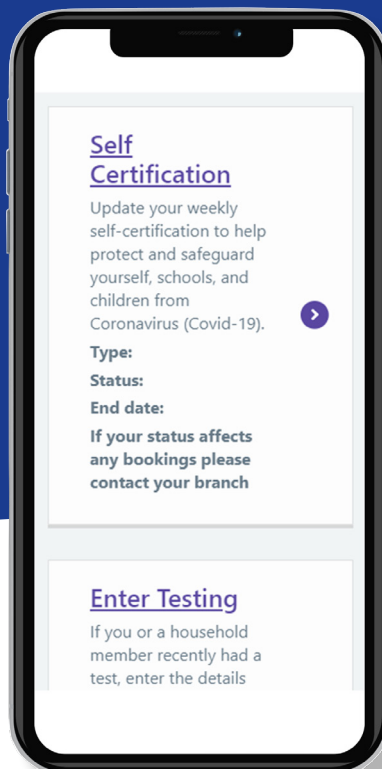

1

Self-Certification

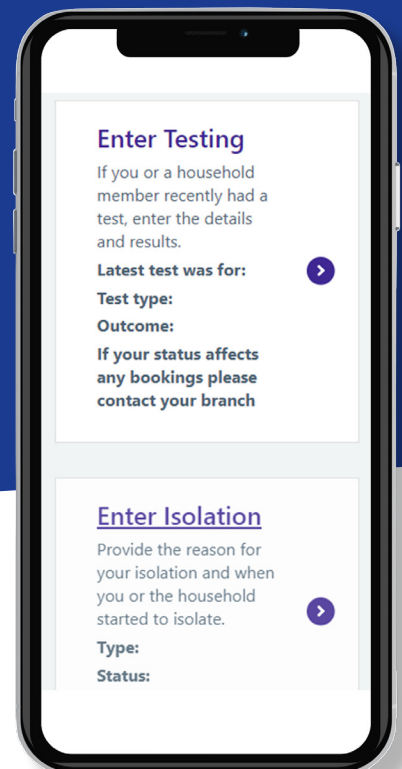

2

Testing

3

Isolation

Self-Certification

- Self-Certification must be completed weekly by the candidates to show if they are available to work
- Candidates must confirm that they are not self-isolating or exhibiting symptoms typical of COVID-19. If candidates show symptoms of COVID-19, they will need to record the date when symptoms or self-isolation started
- The answers given are recorded and determine when a candidate is available for work

1

Do you have any of the following symptoms?

(Please select one or more of the below or none)

High temperature

New, continuous cough

Loss or change to your sense of smell

Loss or change to your sense of taste

None of the above

Before being placed into a booking, our consultants confirm with the candidate that all the information given is still correct. Each week we send out links to the latest Government and NHS information regarding symptoms and testing, to ensure that they are kept up to date. This is just one of the ways in which Teaching Personnel is helping schools stay fully staffed through the pandemic.

We are ready to provide you with safe staffing when ever you require cover. To discuss our available candidates, please contact your local branch or visit www.teachingpersonnel.com/our-branches
